

# Learners list Analytics

With this implementation, we are introducing the learners analytics in the list next within a learning in manage courses.

## User Story

- As a course creator/admin, I want to view how learners have progressed and performed in the learnings I have assigned to them.

## Acceptance Criteria:

Attaching the design file here for your reference, please:

<https://www.figma.com/design/V0vtNi3RCatYgm49sFk0Py/heySales?node-id=754-8734&p=f&t=mBxCX1nHa4MFWj1q-0>

- Admins/course creators will now be able to see additional progress/performance data in the list of learners for a particular learning in manage courses.
- The additional data will vary based on the learning type(call simulation/course/podcast) and status of the learner(completed, not started, in progress)- however, the UI in general will be uniform.

Below are the additional information:

## Podcast

| Completed learners | In Progress learners                                                                                   | Not Started                                                                               |
|--------------------|--------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| Flag icon          | Progress bar based on the percentage of their completion - as per our podcast analytics implementation | <b>Upon hover over, admin should be able to see an email icon and send a nudge email.</b> |

|                                                                         |                                                                                                                                               |                                                                                |
|-------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|
|                                                                         | <b>Scope change as discussed</b><br>- We will show time spent for all state of learners distinguishing completed learners with the flag icon. | <b>This is not in scope for the current build.</b>                             |
| Total time they have spent listening to the podcast                     | Last engagement date<br>-<br>Copy:<br>last engaged on <b>'date'</b>                                                                           | Assigned date/Enrolled date<br><br>Copy:<br><b>assigned/enrolled on 'date'</b> |
| Last engagement date<br><br>-<br>Copy:<br>last engaged on <b>'date'</b> |                                                                                                                                               |                                                                                |

## Call Simulation

| Completed learners                                                             | In Progress learners | Not Started                                                                                                                                         |
|--------------------------------------------------------------------------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Flag icon                                                                      | NA                   | <b>Upon hover over, admin should be able to see an email icon and send a nudge email.</b><br><br><b>This is not in scope for the current build.</b> |
| Latest call attempts' score %                                                  |                      | Assigned date/Enrolled date<br><br>Copy:<br><b>assigned/enrolled on 'date'</b>                                                                      |
| Latest call logged date<br><br>-<br>Copy:<br><b>last call logged on 'date'</b> |                      |                                                                                                                                                     |

## Course(with assessment)

- Note: The score % will include colours(red/green) when the course has a pass % set.
  - if the user has failed - score % will be in red
- if the user has passed - score % will be in green
- The flag icon/cross icon will depend on the learner's score % in a course that pass % .

| Completed learners                                                                          | In Progress learners                                                                                                                                                                                                          | Not Started                                                                                                                                                |
