In scope

- Video recording of rep

Out of scope

- Ability to share screen in video recording

Acceptance Criteria

- With this implementation, we will record video of rep talking in simulations.

Creator

- While creating a simulation, creator will be able to choose video/audio in simulation creation like in Elevator Pitch.

Learner

- While taking a simulation with video selected, user will have to allow camera permission as in elevator pitch.
- Learner will be able to view the prospect profile image and their own video in parallel.
- Post completion learners, will be able to view the report for their simulation along with the video recording.

Manager

- Managers via Manage will be able to view reports of video simulations along with video recordings.
