

# Course- Reports

## Objective

Enable coaches and admins to track detailed analytics for each course and individual learner performance.

## Scope

- **In Scope:** Overall analytics for each call course, drill-down learner-level reports, attempt history, learners list UI enhancement, ranking.
- **Out of Scope:** Aspect scores visualizations (charts), call recording features.

## Design File

- <https://www.figma.com/design/qaFY8C6uJLROXVtFaZS9DB/heySales---Master?node-id=2087-15493&t=jGCxdDiGSbd4yXQq-0>
- 

## Features & Functional Requirements

### High-Level Features

- **Course Overview:**
  - Display three title cards: Completion %, Pass %, Average Score, Total Time Spent, Avg. Time Spent.
  - Clickable learner list for detailed reports (completed learners only).
- **Learner Detailed Report:**
  - Three top-level metrics: Latest Score (with subtext), Attempts Taken (last 3 scores shown), Time Spent.
  - Attempt metadata: Call logged on date, call duration
  - Attempt dropdown if multiple attempts.

- Learner sidebar: All completed learners, sorted by recency. Highlight and auto-scroll to selected.

## UI Acceptance Criteria

### Course Analytics Overview

| Criterion                                        | Details                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Completion % Card</b>                         | <p>Shows Z %<br/>"X completed of Y assigned/enrolled."</p> <p>-X will be the total unique number of learners who have completed the call course at least once.<br/>-Y will be the total unique number of learners who have either been assigned the learning or enrolled in the learning.</p> |
| <b>Pass %</b>                                    | Number of passed learners divided by number of completed learners                                                                                                                                                                                                                             |
| <b>Average Score Card</b>                        | Shows arithmetic mean of all completed attempts by all learners.                                                                                                                                                                                                                              |
|                                                  | The score % is to be rounded off to the nearest whole number.                                                                                                                                                                                                                                 |
|                                                  | In the subtext, we will show across how many completed attempts the average is calculated.                                                                                                                                                                                                    |
|                                                  | In case of no completion, it will show na and also subtext saying no learners have taken the learning yet.                                                                                                                                                                                    |
| <b>Total Time Spent learning from the course</b> | Total time spent across their attempts                                                                                                                                                                                                                                                        |
| <b>Average Time Spent Card</b>                   | Average time spent by each learners(across attempts).                                                                                                                                                                                                                                         |

| Criterion                          | Details                                                  |
|------------------------------------|----------------------------------------------------------|
|                                    |                                                          |
| <b>Learner List</b>                | Shows all learners and their current call course status. |
|                                    |                                                          |
| <b>Completed User (clickable)</b>  | Opens detailed report for that user.                     |
|                                    |                                                          |
| <b>Not Started User (disabled)</b> | Non-clickable and visually disabled in list.             |
|                                    |                                                          |

## Learner Detailed Report

| Metric                                 | Details/Edge Cases                                                                                                                                                                                                                 |
|----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Latest Score</b>                    | Display latest attempt's score (percent).                                                                                                                                                                                          |
|                                        | <p><b>Subtext:</b> Compare to all learners' <i>best(highest)</i> scores.</p> <p>Meaning the latest score of the learner will be compared against the best scores of the other completed learners.</p>                              |
|                                        |                                                                                                                                                                                                                                    |
| <b>Attempts Taken</b>                  | Show number, and for last three attempts, in the UI we will be showing score %.                                                                                                                                                    |
|                                        | In case of only 1 attempt the score % UI will not be visible.                                                                                                                                                                      |
|                                        |                                                                                                                                                                                                                                    |
| <b>Time Spent</b>                      | Show cumulative time user spent on this course across attempts.                                                                                                                                                                    |
|                                        |                                                                                                                                                                                                                                    |
| <b>Time to Complete (Ramp up rate)</b> | Shows number of days it took to first complete the learning since enrollment/assignment                                                                                                                                            |
|                                        | Below this card, we will be showing the assignment/enrolment date                                                                                                                                                                  |
|                                        | <p>The time measure will be hours if time taken is less than 24 hours</p> <p>The time measure will be days if time taken is more than 24 hours(day count will rounded off to the nearest day count based on total hours taken)</p> |
|                                        |                                                                                                                                                                                                                                    |

| Metric                         | Details/Edge Cases                                                                                                                                                |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                |                                                                                                                                                                   |
| <b>Latest Attempt Metadata</b> | As in design file                                                                                                                                                 |
|                                |                                                                                                                                                                   |
| <b>Learner Sidebar</b>         | Sorted by last call completion date; current selected user in focus; auto-scroll to user in list.                                                                 |
|                                |                                                                                                                                                                   |
| <b>Assessment Report</b>       | Below the overall cards, the assessment report for the particular attempt will be listed.                                                                         |
|                                | The assessment report will vary based on the call - discovery call, cold call as existing today - that appears to the learner upon completion and evaluation.     |
|                                |                                                                                                                                                                   |
| <b>Attempt Filter</b>          | In case a learner has completed more than 1 attempt, a coach/admin will be able to filter down by attempts to assess that particular attempt in detail.           |
|                                | The dropdown will include all the completed attempts of the learner for that particular course.                                                                   |
|                                | This will include even attempts that did not have enough time logged for a report - however in this case we will handle it in the UI saying report not available. |
|                                |                                                                                                                                                                   |
| <b>Ranking</b>                 | Towards the top right corner of the detailed page - the rank of the particular learner will be displayed.                                                         |
|                                | This will be based on the 'best score' of all the completed learners(across their attempts).                                                                      |
|                                | Along with the rank - the best score of the learner(based on which the rank was assigned) will also be displayed.                                                 |
|                                |                                                                                                                                                                   |

#### **Overall Metadata attached to each attempt:**

- completed on date
- total time spent for that attempt across the units within the course

**Metadata attached to each unit:**

- time spent(lesson and assessment)
- time spent and score(assessment)

**Assessment breakdown:**

- Clicking upon an assessment must open the slider where where the user will be able to view the detailed breakdown for that particular assessment.
- User will be able to click on each question and view the learner's response and the feedback as in the existing assessment report - following the design template that we have today in mobile.

**Out of Scope**

- No UI for aspect scores/charts.
  - No call recording/playback button.
  - Search in list of learners
  - There will be no number on the list of learners - only rank will appear within the detailed pag
-
